

ROLE OF VALUE EDUCATION IN SOCIAL CHANGE

Dr. Ajeeta Jagdishbhai Jani
M.A., M.Ed., M.Phil., Ph.D.

1.0 INTRODUCTION :

Human life is a social life society is continuous, progressive and revolutionary. There are many challenges against the society. Because of that changes come in the society. Revolution is the decent and distinct feature of the society.

Some Critical Views :

- (1) "Social change is a term. Used to describe variations in or modifications of any aspect of social process, social patterns social intercalation or social organization." - Jones
- (2) "Social Change is a process responsive to many types of changes in the men - made condition of living to changes in the attitude of the men and changes that go beyond human control to be biological and physical nature." - Maciver and Page.
- (3) Social change refers to a pattern of social relationship in a given social setting, which exhibits change over some definite period of time. - Miller.

2.0 THE FOUNDATION OF SOCIAL CHANGES :

Social change is a continuous process. There are two aspects of social changes.

(i) Physical Changes :

The changes which come through human's intelligence and education in housing development, Transportation Facilities, dress - designing, Food material, electrical facilities new techniques of production are called physical changes.

(ii) Non - Physical Changes :

The internal changes which come through human consideration, beliefs, ideals and values are called the non - physical changes.

Through, The process of social transformation is completed by physical and non physical changes.

- (6) Technological Factor.
- (7) Cultural Factors.
- (8) Political Factor.
- (9) Thinking Factor.

4.0 ROLE OF VALUES IN EDUCATION :

By the value education, we have tried to clear some concepts in students mind. The aim of value education is selection of person true value by which he accepts that values and tries to live with those values. It is necessary to develop national unity, religious harmony scientific vision and democratic attitude through education in the present time. In a person the Values of education which are given below can be developed by education.

- (1) *Spiritual Values* : Truth, religious harmony, sincerity.
- (2) *Moral Values* : Duty, honesty, restraint, character, good conduct, justice.
- (3) *Social Values* : Patience, social justice, impartiality, Co-operation, humanity.
- (4) *Economical Values* : Productivity
- (5) *Physical Values* : Health
- (6) *Biological Values* : Self. defense, Food.
- (7) *Political Values* : Love of mother land, democracy.
- (8) *Universal Values* : Universal brotherhood, human vision human rights.

5.0 IMPORTANCE OF VALUE EDUCATION IN SOCIAL CHANGE :

- (1) A student can learn to observe some specific incidents or situation with particular eye-sight by recognition of value.
 - (2) A student can develop his commonsense he can strengthen his psychological strength and can inspire the other students.
 - (3) The history of value changes is quite vast it gives us the norms of progress of familiar society.
 - (4) To develop interest, lives, attitude, culture, the education of values, is necessary, are can make good citizen by these values.
 - (5) To develop the understanding of lifestyle.
 - (6) A student can understand the struggle betoken values in the society and come across to concord of values instead of such struggle.
 - (7) The work of value education is the long process of the development life is also a process of development.
-

- (8) Through the value education - teacher - student, student, family, student - society, try to understand, each other.

6.0 CONCLUSION :

In old age the motion of social change was very dull. The work to maintain and preserve the social tradition was done through education. With the passage of time, the values have been changed according to the needs of education and society. As an intense instrument of the social transformation and for the tanning of future citizen the value education should be firmly given to the students.
