

STEPS TO BE SUCCEED - LIFE LONG EDUCATION

Dr. Ajita Jagdishbhai Jani
M.A., M.Ed., M.Phil., Ph.D.

ABSTRACT :

Life long education is new concept of 21st century education every one should get formal and informal education through life. Because life is learning process.

Concept of life long education is education starts from birth and it is continuous until death. So we should get education from every moment, place and different skills.

Life long education is flexible. It gives commercial training to Doctors, Teachers, Farmers, Loyers etc. Life long education include continuing educations programmers. According to life long education them - community should be learned community. Every one should achieve new skills for changing and challenging life. A Doctors, Teacher, Loyers should renew their degrees. Any one degree should have some expire date !

Medium of life long education is schools, colleges, universities, Teacher, city, village, temples, bus stands, Family, Community, Industries, Nature, News papers, Magazines, T.V., Films, Library etc.

We get education from formal and informal way through life, So life long education is necessary for all people in new changing life!

KEYWORDS : Life long education , learning process.

1.0 INTRODUCTION :

In 21st century life long education is very important for every people. According to UNESCO report (Learning to be) : "Education should be active instruments of social changes." Human life is learning process. He learns from Womb to tomb, cradle to the grave. So education should be without wall. Today formal education is in common and routine structure. Averant Ramer Said - 'School is dead.' Evan Elich believe in - Deschooling society. Education is life long process. Formal education is not enough for all people. Every year population rate goes very high and high ! In this situation every one should get life long education !
