

FINANCIAL ADMINISTRATION RELATED PROBLEMS IN HEALTH & FAMILY WELFARE PROGRAMMES IN HARYANA: A CASE STUDY

Ramesh Kumar

Research Scholar , Department of Public Administration , K.U.Kurukshetra.

ABSTRACT

All (state) activities depend first on the treasury. Therefore, a king shall devote his best attention to it. A king with a depleted treasury eats into the very vitality of the citizens and the country.

Kautilya, the Arthashastra

Public Finance Administration or generally additionally referred to as Government Finance Administration may be a field that's fast increasing in its scopes, and is contemplate as among the foremost necessary portfolio within the government. Finance is that the fuel of administration. Finance moves the machinery of state. Sound financial administration is the crux of the efficient administration of government operations. Whatever may be the system of government-capitalist, socialist or a mixed economy the financial administration is very important to sustain these systems.¹

KEYWORDS: Organization, Climate, Culture, Psychological Well-being, Manager.

INTRODUCTION

Financial Administration Defined

The term Financial Administration consists of two words viz. 'Finance' and 'Administration'. The word 'administration' refers to organisation and management of collective human efforts in the pursuit of a conscious objective. The word 'Finance' refers to monetary (money) resource. Financial Administration refers to that set of activities which are related to making available money to the various branches of an office, or an organisation to enable it to carrying out its objectives. Whether it is the Department of Agriculture, Railways, Road Transport Corporation, Primary Health Centre, Municipality or Gram Panchayat, or for that matter, a family, its day-to-day activities would depend upon the availability of funds with which financial administration.

DEFINITIONS

L d White Every administrative act has its financial implications; either creating a charge on the treasury or making a contribution to it.

Gladstone Budgets are not merely matters of arithmetic but in a thousand ways go to the root of prosperity of individuals, the relations of classes and the strength of kingdoms

Plowden Committee Budget is a process in which the instruments of taxation and the expenditure are used to influence the course of economy

F. A. Nigro Financial administration is of special importance today for the simple reason that, while there seems to be no limit to

¹S. L. Geol, Public Financial Administration, Regal Publication, 2008, p. 2

what we may ask of government, there is always a limit to the funds available.

Hoover Commission Financial administration is at the core of modern government.

Willoughby Budget is an integral and indispensable tool of administration. He also observed the real significance of the budget system lies in providing for the orderly administration of the financial affairs of a government.

Lloyd George; Government is finance

Morstein Marx Finance is as universally involved in administration as oxygen is in the atmosphere².

Historical Development of Public Finance Administration

During World War I & II this definition was given by the Hoover Commission, USA, 1949. Zaherawati During the period of World War I & II, the "Line Item Budgeting" system was used. This system emphasized on the control of public (governmental) expenditure on the various programs.

Thus, each item to be purchased by the assorted governmental departments ought to enlist the things to be bought in details. This is often to make sure (prevent) the misuse of public cash & overspending. When war II when war II, the look Program Budgeting System were used. This method emphasized on the requirement for detail designing of the assorted governmental programs – to make sure the viable of any programs. This method is a lot of versatile than the road Item Budgeting system. The PPBS is additionally called the "Performance Budget" or the "Rational Comprehensive Approach."

PPBS = Performance Budget = Rational Comprehensive Approach

Finance Administration of Health and Family Welfare in India

The Ministry of Health and Family Welfare (MoHFW) has two departments (i) the Department of Health and Family Welfare, and (ii) the Department of Health Research. The Department of Health and Family Welfare is responsible for functions including (i) implementing health schemes, and (ii) imparting medical education and training. The Department of Health Research is broadly responsible for conducting medical research.

The Ministry of Health and Family Welfare graded eighth in terms of the entire monetary fund allocation in 2017-18. This note analyses the money allocation trends and key problems regarding the health sector.

In 2017-18, the MoHFW received Associate in Nursing allocation of Rs 48,853 crore. This allocation is a rise of 23rd over the revised estimates of 2016-17. Note that the budget estimates for 2017-18 exceed the budget estimates of 2016-17 by Rs 10,646 crore. Below the Ministry, the Department of Health and Family Welfare received the very best allocation (97%) at Rs 47,353 cor. This was followed by the Department of Health Research (3%) at Rs 1,500 crore. Table 4.1 provides details on the two departments under the MoHFW.

Table 1.1
Budget allocations for the MoHFW (in Rscore)

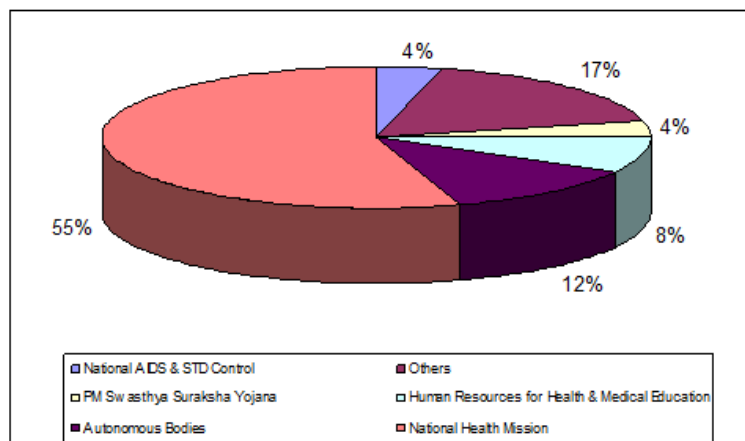

Major Heads	Actual 2015-16	Budget revised 2016-17	Budget estimate 2017-18
Health & family welfare	33,121	38,343	47,353
Health research	993	1,345	1,500
Total	34,114	39,688	48,853

In 2011, the High Level Expert Group (HLEG) on Universal Health Coverage constituted under the

Planning Commission made certain recommendations with respect to the provision of universal health coverage. Universal health coverage includes ensuring equitable access to affordable and appropriate health services of assured quality. The HLEG recommended that the central and state governments must increase public expenditure on health to, (i) at least 2.5% of the GDP by the end of 2017, and (ii) at least to 3% of GDP by 2022.

Financial budget for Haryana all department

The finance minister proposed a budget of `102329.35 crore for the fiscal 2017-18, an increase of 13.18 per cent over RE 2016-17 of `90412.59 crore. This is the first time in the State that the Budget has crossed the figure of one lakh crore, excluding food grain procurement operations. The Budget outlay of `102329.35 crore comprises 21.88 per cent as capital expenditure of `22393.51 crore and 78.12 per cent as revenue expenditure of `79935.84 crore. "Antyodaya" and "minimum government and maximum governance" are the guiding principles to make the State a better place to live in. In order to fulfill this vision, a strategy as well as an action plan based on nine priority areas vise, (i) agriculture, (ii) rural development, (iii) urban development; (iv) infrastructure, (v) education and IT governance; (vi) health; (vii) women empowerment (viii) development of youth and (ix) culture have been framed.

Figure - 1.2
Financial budget for Haryana all department

Financial budget for Health and family welfare programmes in Haryana

Recognizing that health and family welfare sector is very important for socio-economic development. The proposed to allocate `3839.90 crore in 2017-18 for health and family welfare which is an increase of 15.52 per cent over the RE outlay of `3323.95 crore in 2016-17. The State Government has made it a priority to provide affordable, convenient and modern medical facilities in the State. All essential medicines are being provided free of cost in Government hospitals. MRI and CT scan machines have been installed in six district hospitals and three Medical Colleges on PPP mode. Besides, letters of award for installations of these machines have been issued in respect of five more district hospitals. For the first time, dialysis services have been started in four districts and are being installed in another ten districts. Ultra-modern Cath-Labs are also proposed to be set up in four district hospitals namely, Panchkula, Gurugram, Ambala Cantt. and Faridabad. The State Government envisages opening a medical college in every district. Detailed Project Report of Government Medical College in Bhiwani has been approved by the Ministry of Health and Family Welfare, Government of India. The construction work will commence soon. The Medical

University at Kutail, Karnal will have “State of the Art” 750 bed multi-specialty and super specialty hospital. Construction of medical colleges in Jind is likely to begin in 2017-18. Medical Council of India (MCI) has already conducted inspection of KalpanaChawala Medical College, Karnal and it is likely that the first batch of MBBS for 100 seats will be admitted in the 16 academic year 2017-18. Further, a Dental College will also be established in the ShaheedHasan Khan Mewati Government Medical College, Nalhar to provide better oral healthcare and dental education to the people of socioeconomic backward district of Mewat.

Budget expenditure by the selected for Primary Health center was 46.26 from 2013-14 to 2016-17 expenditure to the Primary Health center, Chuli Bagrian (Hisar), The Budget expenditure to the Primary Health center, LakhanMajra (Rohtak) 22.52 from 2013-14 to 2016-17 and the budget was expenditure to the Primary Health center Bhangrola (Gurugram) 13.30 from 2013-14 to 2016-17. The Budget was ₹63.51 lakh from 2013-2014 to 2016-2017 expenditure to the Primary Health center, Pipli (Kurukshetra).

CONCLUSION AND REMARKS

The state government sanctions the budget, decides the financial powers of the hospital, CHCs and PHCs officials from time to time and the pay and accounts office pre-audits and passes the bills submitted by the health intuitions.

Adequate supply of budget is an immense need to bring success in any welfare scheme and it becomes more prominent when it is associated with the health of the people.

It is also a tough task to meet the health of such a large population size. Hence all we need extra budget to fulfill the demands like more health institutions, more medical staff, more effective conveyance system and more measures to make people aware about these schemes and programs.

Healthy mind needs a healthy body which results into the overall health of the people. But, amazingly the government does not notice this basic fact because share of the health budget in Haryana is only 3.75 percent of the total. At national level only 1.1 percent of total GDP of India is used in health sector. However, Govt. of Haryana has increased. The budget 15.52 percent during 2017-18 i.e. 3839.90 crore in 2017-18 from 3323.95 crore in 2016-17. This budget is divided into three parts viz. health services, family welfare schemes of Aayush.

Budget of health service has increased by 30 percent from 2011 to 2017-18 i.e. ₹76227.38 in 2011-12 to ₹175354.77 in 2017-18. The family welfare schemes allocated budget has declined to ₹10391.85 in 2017-18 from ₹11755.25 in 2011-12, however, the govt. has revised budget in 2017-18 to ₹23093.

In family welfare schemes, there is huge increase in AIDS control scheme i.e. ₹800 lakh in 2014-15 to ₹3300 Rs in 2016-17 i.e. more than 400 percent. Budget of Janani Suraksha Yojana has decreased to ₹800 lakh in 2015-16 from ₹950 lakh 2011-12. There is 47.95 percent increase in the budget of disease control from 2011-12 to 2016-17. A small increase is also legislated of National Health mission has increased to ₹39725 to 2017-18 i.e. 653.5 percent more from 2011-12.

The budget allocated to the sample health institution i.e. civil hospital Hisar has received about

`2300.00 in 2016-17 followed by civil hospital Rohtak i.e. `1503.00 of civil hospital Kurukshetra i.e. `135.00 Civil hospital, Gurugram has received `628.86, during 2016-17. Every CHS has received increased budget continuously except CHC Kurukshetra where budget is declined to `135.00. In 2016-17 from `2506.00 in 2013-14.

The budget allocated to the sample health and family welfare Institutions i.e. community health center, Siswal (Hisar), has received about `519.93 In 2016-17 followed by Community Health Center, Mathana (Kurukshetra) `756.50 Community Health Center Meham (Rohtak) `697.00 lakh and Community Health Center Faruknager (Gurugram) has received `508.00 during 2016-17.

The budget allocated to the sample health and family welfare Institutions i.e. primary health center, Chuli Bagrian (Hisar), has received about `5.20 crore In 2016-17 followed by primary Health Center, Pipli (Kurukshetra) `12.00, primary Health Center Lakhana Majra (Rohtak) `11.00 and primary Health Center Bhangrola (Gurugram) has received `5.00 during 2016-17.

In fact, in overall scenario of the health budget it is difficult to meet the objectives of state's health & welfare policies and programmes in limited resources particularly when our population size is much bigger, Govt. aims to facilitate more & more people with their health policies & programmes there should be a free-flow budget. More health facilities to the people is not only their right but also the duty of the state governments.
